Water Is Life

Alabama Water Rally Agenda

COMMUNICATE. COLLABORATE. ACT!

March 16 - 18, 2018 | Montgomery, AL

Advocating for our rivers and clean water in Alabama takes many people and a great deal of passion, but it also takes expertise and smart, considered, collaborative strategies. In order to create the change we want to see for our rivers and waterways, we have to be able to **COMMUNICATE** effectively to the public and to the decision-makers and stakeholders. We have to **COLLABORATE** well with each other as allies, and we have to be willing to **ACT** when it is time. These three topics will be the theme throughout Alabama Water Rally as we discuss the various issues facing our rivers and we share information and tools that help us protect them NOW and for generations to come. WHAT'S IN YOUR WATER?

Presenters: [Sarah Stokes](#), Southern Environmental Law Center | [Nelson Brooke](#), Black Warrior Riverkeeper | [Katherine Baer](#), River Network

Do you ever wonder if the water coming out of your tap is safe to drink? Do you know where your water comes from? The safety, affordability, and availability of drinking water is increasingly a concern for many in our state and around the country. This session will provide basic information on laws that protect drinking water, discuss concerns about the sources of our drinking water and how we can protect them, as well as how affordability and infrastructure intersect. Participants will also have the opportunity to hear more about what's going on nationally around these topics.

Salon F

ENERGY POLICY BARRIERS: WE ALL LIVE IN A YELLOW SUBPAR REGIME

Presenter: [Daniel Tait](#), Energy Alabama | [Kirsten Bryant](#), Gasp

Energy efficiency and renewable energy represent some of the easiest and most cost effective ways to reduce personal impact and save money. Moving our state's energy production toward more renewable sources is also key to improving air and water quality as well as minimizing the impacts of climate change. Learn about Alabama's dated energy policies and the barriers that need to be removed to increase access to renewable energy and improve energy efficiency.

SATURDAY BREAKOUT SESSIONS 2 3:30 pm - 5 pm

THE HIGH, THE LOW & THE HEALTHY: WHY FLOWS MATTER

Presenters: [April Ingle](#), River Network | [Mitch Reid](#), The Nature Conservancy

We all know that the amount and timing of water in our rivers matter. During droughts, our rivers can literally dry up. During floods there can be huge tolls on communities, personal property and human lives. But is there anything we can do about it? The answer is YES! The way our rivers are "managed" plays a huge role in how our rivers and communities are impacted during droughts and floods. During this workshop we'll learn how our rivers are being mismanaged now and opportunities to improve it.

<p>Salon F</p>	<p>TEACH THE CHILDREN WELL: EDUCATIONAL RIVER ACTIVITIES FOR KIDS Presenters: Stephen Guesman, Friends of the Locust Fork River Jamie Bullock, Mobile Baykeeper Maggie Johnston, Camp McDowell</p> <p>Capturing the attention of our next generation of leaders at a young age is important to create a respect, an understanding and a passion for our rivers and the critters that depend on it. By working with students, it is also an excellent tool to reach into communities and engage parents as well. Look for great ideas for how your group might engage in your community. Come see and hear what the future can be!</p>
<p>5:00 pm <i>Meet in the lobby!</i></p>	<p>Group Photo Time! Hooray! <i>Meet in the lobby with your smile. We want EVERYONE included!</i></p>
<p>5:30 - 6 pm Salon D</p>	<p>Southern Exposure ChitChat Join us for a quick chat about ARA's newest program, the Southern Exposure Film Fellowship. We will briefly discuss film topic ideas for 2018 and let you know how you can be involved for the years to come.</p>

<p>SUNDAY BREAKOUT SESSIONS 3 9 am - 10:30 am</p>	
<p>Salon D</p>	<p>CREATING AND MAINTAINING A RESILIENT ORGANIZATION Presenter: Casi Callaway, Mobile Baykeeper</p> <p>Strong community and watershed based organizations are the cornerstone of our ability to protect Alabama's 132,000 miles of rivers and streams. This session will provide tools and information on organizational best practices and useful resources, such as fundraising, leadership development, and planning to keep your organization sustained and strong for the long haul.</p>
<p>Salon E</p>	<p>COLLABORATING WITH ACADEMIA Presenters: Dr. Elizabeth (Betsy) Dobbins, Samford University Catherine Flowers, Alabama Center for Rural Enterprise</p> <p>Academic research can provide important data to clarify and backup the concerns we have as environmental groups and community members, but how can you connect with them and take advantage of these important resources in our state? Participants will leave with important tips and best practices on engaging effectively with academic resources.</p>

<p>Salon F</p>	<p>UP IN SMOKE: COAL IN ALABAMA AND BEYOND Presenter: Stephen Stetson, Sierra Club Beyond Coal Campaign</p> <p>Despite pronouncements to the contrary from some politicians & industrial leaders, coal is in retreat around the country. Mining & burning coal for electricity will eventually be considered as outdated of a practice as riding in a horse-drawn buggy or typing on a typewriter. Nonetheless, coal-burning power plants continue to contaminate our landscapes and rivers, sending carbon into the atmosphere & toxic coal ash into our water supplies. In a world where utilities retain tremendous amounts of political power, Sierra Club's Beyond Coal Campaign is employing a variety of tactics, including grassroots organizing & litigation, seeking to retire the remaining coal plants and ensure a "just transition" away from the legacy of dirty energy that impairs our health & our economy. This session will cover the complex world of electricity generation & the exciting frontiers of affordable clean renewables.</p>
<p>10:45 - 11:45 am</p> <p>Embassy I</p>	<p>PLENARY: <i>DISCOURSING WATER</i> Presented by the Alabama Rivers Alliance Junior Board</p> <p>Panel members: Rebecca Jackson, Voices for Alabama's Children Yohance Owens, Village Creek Society and Michael Bullington, Young Alabama Moderator: Charles Miller, AmeriCorps and ARA Junior Board Co-chair</p> <p>Environmental issues rarely get attention in Alabama elections. This panel of professionals from across the political spectrum will provide insight on ways to raise the level of awareness about water and other environmental issues during the election season and help us understand the varied political perspectives around our concerns, so that we can more effectively engage with candidates and political organizations around these issues.</p>
<p>12pm</p>	<p>Check out of hotel rooms : (We will miss you!</p>
<p>12:15 - 12:30</p>	<p>Pick up boxed lunches for your field trips outside at EATSouth. <i>These boxed lunches are only for those who signed up for one in advance.</i></p>
